

ENES KAYNAKCI | AI / Software Engineer

Ankara, Türkiye | tensorenes@gmail.com | linkedin.com/in/enes-kaynakci | github.com/ekaynac | ekaynac.github.io

Summary

AI-leaning full-stack engineer building LLM and agent pipelines and computer-vision systems on production microservices and modern web and mobile stacks. Bilkent University Information Systems graduate (2026).

Experience

Mega Bilgisayar

May 2026 – Present

AI / Software Engineer

Ankara, Türkiye

- Build on-prem LLM platforms and agent tooling, including a customized LibreChat deployment and MCP & n8n based portal agents for internal workflows.
- Designed LLMDAP, a sovereign LLM-agent identity and memory-protection library binding agent memory and tool access to AD/LDAP or OIDC identities with Casbin authorization, envelope encryption, and a tamper-evident audit trail.
- R&D'd computer-vision industrial-safety systems (PPE/vest detection) on Nvidia Jetson edge hardware using YOLO, SAM, DepthAnything etc. models.

Mia Teknoloji

Feb 2025 – Jul 2025

AI Intern, AI R&D

Ankara, Türkiye

- Engineered end-to-end LLM agent pipelines using RAG, function calling, transformers, and embedding models.
- Delivered a production SQL-generation pipeline with a 3-tier fallback mechanism using OpenWebUI and local LLMs.
- Built a Turkish translation pipeline integrating Zemberek morphology for improved contextual accuracy.

Mega Bilgisayar

Jun 2024 – Aug 2024

AI Solutions Team Intern

Ankara, Türkiye

- Developed and deployed an industrial safety system using YOLOv5 and OpenCV on NVIDIA Jetson with TensorRT optimization.

Meturone (Fixed-wing UAV Team)

Sep 2021 – Sep 2023

Computer Vision Team Member

Ankara, Türkiye

- Teknofest International UAV Competition finalist (2021 and 2022); deployed FP16-quantized YOLOv5 on Jetson Xavier for real-time aerial perception.
- Curated and published an ~11,500-image (8,815 train / 2,650 validation) UAV detection dataset for open-source use.

Projects

SIMS — Smart Inventory Management System | PHP, Laravel, Node.js, Fastify

- 10-microservice inventory platform with an MCP-powered AI assistant (graduation project).
- 10 microservices across 4 languages with per-service databases and a Redis event bus.

LLMDAP — LLM Directory-bound Access Protection | TypeScript, Node.js, Casbin, LDAP/Active Directory

[Code](#)

- Sovereign LLM-agent identity and memory protection bound to AD/LDAP or OIDC.
- On-prem by default: LDAP identity, embedded Casbin, local encrypted storage, hash-chained audit.

Etch-A-Chat | React Native, Expo, Skia, Socket.io

[Code](#)

- Privacy-focused real-time vector-drawing messenger.
- Live collaborative vector canvas over Socket.io.

Technical Skills

Languages: Python, TypeScript, JavaScript, PHP, Java, C, Dart, Kotlin

AI & ML: LLM Pipelines, RAG, Function Calling, Agents, MCP, Transformers, Embeddings, DSPy, TensorFlow, PyTorch, OpenCV, TensorRT, YOLOv5

Web & Mobile: React, Next.js, React Native (Expo), Node.js, Express, Fastify, FastAPI, Laravel, Socket.io, Tailwind CSS, Vite

Infrastructure & Tools: Docker, Kubernetes (EKS), Nginx, MySQL, MongoDB, Redis, RabbitMQ, GitHub Actions, Git, Supabase, Vercel, LDAP/OIDC, Casbin

Education

Bilkent University

Aug 2022 – Jun 2026

B.Sc. in Information Systems and Technologies

Ankara, Türkiye

FH Upper Austria, Hagenberg Campus

Oct 2024 – Feb 2025

Erasmus Exchange Student

Hagenberg, Austria

Middle East Technical University (METU)

Sep 2018 – Jun 2021

B.Sc. in Electrical-Electronics Engineering (transferred)

Ankara, Türkiye

Certifications & Awards

Deep Learning Specialization (DeepLearning.AI), Stanford Machine Learning; 2nd Place — 18th METU Robotics Days (Autonomous UAV CV, 2022); Teknofest UAV Finalist (2021 & 2022).

Leadership & Interests

Founder, Bilkent Game Development & Animation Society; President, Bilkent Literature Society; founding poetry editor at Polemik Yayınları; published poet (Uyandı Uyudu, 2024).
